President, Mr. (The Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

Ruling by—in connection with the Bengal Municipal Bill, 1932, that he could accept any amendment on short notice and even without notice : 35.

remark by—that a suggestion is not a point of order : 36.

ruling by that it is permissible to a member of the Council to find fault with another member for having caused waste of time by bringing forward an amendment approved by the Chair, when he was merely voicing his own opinion thereby : 58

allowing motions to be moved with slight alterations : 66

allowing questions to be put on a statement made by an hon'ble member of Government provided they are relevant and are meant to further elucidate any matter of fact of that statement : 91.

Observation by—that no change in the wording of an amendment could be made at a stage when he had put the amendment to the vote and a division had been called : 105.

that progress in the business of the House cannot be made unless members confined themselves strictly to the motions before the House : 114.

President, Mr. (The Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

Allowing two amendments to be reduced to one : 120.

Disapproving of any member calling division light-heartedly : 123.

ruling by—that no members' remark should encroach on amendments not before the House : 126.

Allowing postponement of discussion of clause, to revert to it later, in order to give time for better drafting : 170.

Observation by—that if a motion was put when several members wanted to speak on it, but did not get an opportunity to do so, and if a member rose to point this out to Mr. President, he was not rising on a point of order arising from that circumstance : 174

In reply to Mr. W. H. Thompson's suggestion, that much of the time of the Council would be saved if members who had tabled amendments and approached members or ministers of Government beforehand, in order to ascertain which of them would be acceptable to Government, and abandoned those that Government did not approve, that it was not the function of the Chair to throw out such a hint : 181.

Disapproving of hypothetical supplementary questions being put : 199.

Ruling by—that a member can move a motion tabled by another member as his own motion only : 215.

Remark by—to a suggestion from Khan Bahadur Maulvi Azizul Haque that the decision of the House on a motion be taken by the raising of hands in order to save time, that it would be better if the decision which he gave on the strength of voices were not challenged : 221.

Observation by—that no member is permitted to refer to matters connected with any case that is pending : 223.

Discouraging undue stress on the enunciation of an abstract principle : 225.

Point of information -

Regarding declaration of the seat of Maulvi Jalaluddin Hashemy as vacant by Government : (Q) 328-331.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

Observation by - that, claiming a division on a matter of principle in the first instance, and then withdrawing it at the second opportunity, constituted a lame excuse for wasting the time of the Council : 44

Ruling by - that points of dispute over a compromise arrived at outside the Council Chamber could not be raised on the floor of the House : 66.

Observation by- in answer to a point of order of Mr. W. H. Thompson, that a member was advancing arguments which seemed to refer to a matter just then decided by the House - that a member was in order so long as his arguments, old or new, were relevant to the amendment then before the House : 80

Observation by- that in certain cases speeches in support of a Government amendment were not necessary unless they threw any new light upon the matter or advanced any new argument in respect thereof : 84.

Observation by - that a controversy over grammar cannot be made a subject for a point of order : 142

Observation by - that the chair possesses the power of allowing an amendment to be moved at short notice or even without notice : 151

Ruling by - that it was not open to any member of the House to criticise the conduct of the Hon'ble Minister for Local Self Government with reference to the action taken by him in connection with the Education Committee of the Calcutta Corporation, or to cast aspersions on him with reference to a matter which was not before the House : 196.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)—*contd.*

Observation by— that although he had allowed members and also the Hon'ble Minister for Local Self-Government to move amendments at short notice, or even without notice, so that the Bengal Municipal Bill might be as faultless as possible, yet it would not be fair on his part to allow such amendments to be moved by any one unless were backed by an important party, or by the Hon'ble Minister. 198.

Consent by— to postpone, at the request of the Local Self-Government Minister, the consideration of a clause of the Bengal Municipal Bill, for some time in order to allow of examination of the implications of a short notice amendment. 211.

Observation by— that discussion of an amendment should not be put off unless the Hon'ble Minister in charge of a Bill agrees to do so. 247.

Observation by— in reply to a point of order raised by Mr. Narendra Kumar Basu, that the List of Business is not unalterable, and that when there is a lull in the consideration of a Bill, the Chair could direct that other business should be taken up in the interregnum. 268.

Ruling by— that a member is well within his rights in voicing what he thinks to be public opinion in connection with a motion for circulation of a Bill for eliciting public opinion thereon, and that the principles of a Bill may also be discussed in that connection: 275.

Observation by— on a point of information raised by Mr. Jitendralal Banerjee, that it was His Excellency's prerogative under a definite section of the Government of India Act, to declare a seat vacant under certain circumstances and that discussion on that matter was not open to the Council: 328, 329.

Observations by— about the duties of a Member of the Council (in reply to a request for information made by Mr. J. L. Banerjee): 329-330.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)—*concl'd.*

Ruling by— that when a Bill has been taken into consideration, and amendments are being dealt with, remarks of members should be confined to the amendments and a general discussion was not permitted: 342.

Authority of the Chair to compel a member to resume his seat when he is persisting in irrelevance: 361.

**President, Mr. (Hon'ble Raja Sir Man-
matha Nath Ray Chaudhuri, Kt., of
Santosh)**

Allowing Maulvi Abul Kasem to make
a brief statement in support of his
motion for leave to introduce his
Calcutta Municipal (Amendment)
Bill, 1932, when that motion was
opposed by several members. 125.

Observation by—that the Home Govern-
ment could not be criticised on the
floor of the House irrelevantly or gra-
tuitously 149.

Observation by—that the expression
"shame" is unparliamentary and
should not be used within the Council
Chamber 151.

Observation by—that a member of the
House was justified in making serious
allegations against anybody only
when he was able to make himself
responsible for the same: 152.

Also that the idea that any member
can make all sorts of allegations on
the floor of the House without in-
curring any censure, was simply
ridiculous. 155.

Observation by—that when a member
rises to a point of order, he must be
able to point out some irregularities
in the debate and not utilise the
occasion for making a general state-
ment in the House: 184.

esident, Mr. (Hon'ble Raja Sir Man-matha Nath Ray Chaudhuri, Kt., of Santosh)

Allowing an Hon'ble Member of Government to make a statement just after the introduction of a private member's bill—though he is not opposing the introduction, so that it might be helpful to all parties: 187.

Allowing Khan Bahadur Maulvi Azizul Haque to move, with the concurrence of the House, that his Nadia Waterways Bill, 1932, be circulated for public opinion, in preference to his motion on the order paper that it be referred to a Select Committee, and thus suspending section 52A of the Rules: 190.

Special motion regarding the Poona Pact : 114-117.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

Ruling given by— that under rule 91(2) of the rules, it was not within the competence of any member of the House to move for the total refusal of a demand, but that he could propose reduction or omission of an item of the demand : 35, 36.

Discouraging any attempt on the part of members to make themselves heard in some indirect fashion : 68.

Also discouraging the practice of members to rise and make speeches under the pretext of making a personal explanation or on points of order without having any material grievance or without being able to make out the points of order : 70.

Ruling by— that the special motion of Babu Jitendralal Bannerjee relating to the Poona Pact admitted under section 78A of the rules was a matter of public interest, to the moving of which the assent of the Hon'ble Member in charge of the department concerned, was given and was therefore perfectly in order. (In answer to a point of order raised by Mr. Mukunda Behary Mullick that the special motion could not be discussed under sections 71 and 78A of the rules and standing orders) : 90-91.

Ruling by— that a special motion under section 78A could be brought forward on the same subject as the subject of any resolution that might have been admitted and might have appeared in the List of Business, but which could not be discussed by the House for want of time and on which no decision was arrived at. (In connection with a point of order raised by Mr. Shanti Shekharwar Ray *apropos* a special motion under section 78A of Babu Jitendralal Bannerjee relating to the Poona Pact) : 92.

Allowing the Hon'ble Home Member to make a second reply, subject to the consent of the House, on an occasion when a member had risen and raised new points after the Hon'ble Member had given his reply ; but hinting that it should not be treated as a precedent : 316.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt. of Santosh)

Disallowing a member in connection with a motion to refer to, or to discuss, a particular question or a particular answer that might have been given in the House, for section 36 of the rules militated against such a course : 328-330.

Observation by—that if a member passes a lobby but does not pass the tellers, his vote must be counted and he must be taken as having voted in that particular lobby according to the rules : 336.

Ruling of in reply to an objection of the Hon'ble Jails Member that discussion of the treatment of prisoners while in police custody should more appropriately be raised under the head "Police" rather than under the head "Jails and convict settlements", that the charges for police custody coming under the head "Jails," the mover was in order in discussing cases of ill-treatment that may have been accorded to prisoners in jails or while being transferred from one jail to another : 432-433.

Remark of that a private member could speak on a motion after an official member had replied, provided that there was time left for him to do so : 452.

Ministerial officers in the (Q) 97

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

Ruling of—, in connection with a motion of recommitment of the Bengal Suppression of Immoral Traffic Bill, 1932, that the primary duty of the mover was to show why he wanted the Bill to be recommitteed and also why he was not satisfied with the personnel of the Original Select Committee, and attack the principles of the Bill if necessary. But the mover could not discuss details except in so far as they affected the principles : 28.

Observation by— that no member was to criticise his ruling but to act up to it : 29.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)—concl'd.

Observation by—that when a member takes a division he really challenges the opinion of the President formed on the strength of the answering cries and a member should not do so unless he is really satisfied that a division is necessary from consideration of the probabilities of the case. the Chair would not object to divisions being called unless they were meant to obstruct business : 54.

Observation by—in connection with the discussion of the Bengal Suppression of Immoral Traffic Bill, 1932, and in answer to a suggestion that in view of the delicate nature of the subject the galleries (which contained a good number of ladies) be cleared, that he did not think it necessary to do so, and expected that the debate would be conducted in decent language and in a decent and business like manner : 112.

Remark of—that members could not refer to anything that was not in the report of the Select Committee which was being discussed in the House at the time : 116.

Observation by—in connection with the request of a member to insist on Government answering all the questions within 15 days after the receipt of the same that he had dealt with the matter times without number but he assured the House that he always kept a vigilant watch over its real rights : 148.

Observation by—that if any member of the House, official or non official, made a speech, said or wrote something outside the House he was not bound to take note of that, unless it seriously affected the dignity or the privileges of the House : 174.

Remark by—that in a reply to a point of order and privilege of the House, if a member, whether official or non-official could discuss in public the merits of a Bill which had not yet been introduced in the House, etc., that each case would be judged on its own merit : 174.

In developing an argument no member shall be permitted to attempt a veiled attack upon an individual : 68-70.

President (the Hon'ble Raja Sir Manmatha Nath Ray Chaudhuri, Kt., of Santosh)

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chowdhury, Kt., of Santosh)

Observations and rulings by

Adjournment of the House is entirely in the hands of the Hon'ble the President 394-395.

A member must have his own way of developing his arguments 195.

A member must realise his responsibility and make fresh and substantial contribution to the debate 231.

A member who is in possession of the House cannot be stopped 485.

Anything construed as a reflection on the House cannot be allowed 192.

Difficulties are imaginary when the substance of two different clauses are the same : 413.

Expressions which do not add weight to a member's argument may be withdrawn 256.

Flinging remarks is no business of a member : 451.

For the sake of correct procedure it is necessary to bring up the original clause as it was when it was referred to the Select Committee and the new details in the shape of a new clause : 368.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chowdhury, Kt., of Santosh)

In the event of an amendment being accepted, the House may not think of omitting a clause altogether : 488.

It is not fair to make the Hon'ble Minister responsible for any pamphlet issued by the Publicity Department : 210.

It is not open to a member to re-open a debate that has already been closed : 228.

Members may be stopped to put an end to future wordy duels from a retreating member 219.

Members must take their seats when the Hon'ble the President rises to address the House : 446.

Members should confine their remarks to that particular clause that is before the House 227.

Nothing said outside can be made an offshoot of the debate inside the Chamber 415.

One cannot accuse any one of making false statements. They may, at least, be incorrect : 191.

President may or may not accept a short notice amendment. There is no question of right 471.

Redraft of amendment need not be moved, when it has been well placed in the Bill and circulated under Hon'ble the President's ruling :

Repetition is no crime provided the same arguments are put in different impressive ways, differently clothed : 230.

Reply to a previous debate cannot be allowed 222.

Slandering Select Committee members is a slander on the House itself : 193.

The Chair cannot be expected to pronounce an opinion whether suggestions of two members are identical or not : 434.

The Chair gives ample scope to members to put forward their view points : 330.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chowdhury, Kt., of Santosh)

The Chair is prepared to weigh in the balance any advice given openly or privately if it is given in the right spirit and with becoming manners : 231.

The Chair may object to the introduction of new matters into a clause by means of an amendment which is beyond the scope of the clause itself : 413.

The Chair may revise its decision if there is any substance in the full statement of the leader of a particular group : 271.

The Chair should not prevent a party leader from making introductory remarks : 251.

The Chair will prevent the majority from tyrannising over the minority as much as it will prevent the minority from obstructing the majority in the pursuit of their work : 271-272.

The House may accept or reject a short-notice amendment which has been permitted by the Hon'ble the President : 469.

The practice of speaking before Government spokesman should be followed under normal conditions as they have got to meet so many points raised by different sections in the House ; but one may have to speak after him when a minister makes out an altogether new point which requires a reply : 419.

Until the whole clause of which the section is a part has been accepted by the House it is certainly assailable : 364.

We are more accustomed to abuse, direct or implied : 518.

When a member denied having made a statement, it is wise not to dilate on it. It is a parliamentary practice to accept a member's statement : 267-268.

When an amendment is applied to two clauses, participators may divide their speeches into two parts : 483.

President, Mr. (the Hon'ble Raja Sir Manmatha Nath Ray Chowdhury, Kt., of Santosh)

When a party leader has made a statement, it is not necessary for other members of that group to make another statement : 272.

When it is not within the power of the Chair to compel a member in possession of the House to yield, members may take notes of the points raised by him : 381.
